

December 18, 2007

Dear Exhibitor,

We are pleased to announce the 6th Northern Lights Summer Conference that will be hosted at the University of Manitoba – Fort Garry Campus, from June 17 – 20, 2008. This is the 52nd Scientific Conference of the Canadian Federation of Biological Societies (CFBS). The scientific program discusses a multidiscipline theme: “**Biology of Aging - New Answers to Old Questions**”. The 2008 program is organized by Dr. Phillip Gardiner, Director, HLHP Research Institute, and Canada Research Chair in Physical Activity & Health Studies, University of Manitoba, Winnipeg, MB. The Scientific Exhibits will be held on Wednesday & Thursday, June 18 & 19, 2008.

I am pleased to invite you to participate as an exhibitor at the 6th Northern Lights Summer Conference. The exhibits form an integral part of the educational experience for the delegates, and provide a mutually beneficial opportunity to showcase your products and interact with the researchers. The exhibitor fees are used to help finance the symposia and together with your displays are valued contributions to a successful conference. We will insert your company logo in the Program & Proceedings Book and Meeting Folder. We will post one paragraph (provided by you) describing your company or product information and create a link to your website on the conference website. This is a good way to educate the delegates about the companies participating in the exhibits and provide you with extra exposure.

The expected attendance for the conference is 400-500 research scientists from across Canada and abroad. The multidiscipline symposia will highlight a number of international speakers. Please refer to the detailed program information.

Theme: Biology of Aging - New Answers to Old Questions

- **Nutrition as a determinant of successful aging**
- **Muscles: from molecules to mobility**
- **Dilemmas of drug therapy in the elderly**
- **The role of oxidative stress in the decline of aged muscle**
- **Neuromuscular function and resistance training in older adults -From laboratory research to clinical implications**
- **Calpain: A molecular monkey wrench involved in aging and cell death mechanisms**
- **Cardiovascular System and Ageing: Exercise Blood Flow**
- **The AAA Alarm: Antioxidants, Atherosclerosis and Aging**
- **Biology of Alzheimer and Dementia**

In addition to the symposia, there will be daily poster sessions. Participating exhibitors are encouraged to invite their customers, laboratory supervisors and staff, to the exhibits area while the scientific sessions are being held. This maximizes the usage of your time while exhibiting at the CFBS conference. Please check the exhibit guidelines page for time and date, no tickets are required to attend the trade show.

The exhibits will be hosted together with the poster sessions and food services. We encourage you to take advantage of the early registration discount fees, other services and marketing opportunities that CFBS offers which are listed on the reservation form. Further information about the exhibits, CFBS, its constituent societies, the annual meeting, and online forms can be accessed from the CFBS web site (www.cfbs.org). Please contact me if you need additional information, or have any suggestions, questions, or alternative requirements.

Yours truly,
Mrs. Wafaa H. Antonious
Manager, Administration & Planning
Canadian Federation of Biological Societies

INVITATION TO PRESENT TECHNICAL TUTORIALS

AT THE

6th NORTHERN LIGHTS SUMMER CONFERENCE

Canadian Federation of Biological Societies 52nd Scientific Conference

June 17 - 20, 2008

**University of Manitoba – Fort Garry Campus
Winnipeg, MB**

Theme:

Biology of Aging - New Answers to Old Questions

WWW.CFBS.ORG

Technical Tutorials may be organized as special seminars or as hands-on workshops to demonstrate particular equipment or techniques.

A room with minimum capacity of 50 person, theatre style set up, is offered for a \$275 + 13.75 GST (285.00 US) fee to companies that also are participating as an exhibitor. Companies that do not have a booth will be charged a fee equal to that for a single booth. Expenses for specialized electrical or other requirements are to be borne by the tutorial organizer, your requirements can be conveyed to Mrs. Wafaa Antonious.

Title of the tutorial, speaker's name and affiliation, few line tutorial description and company logo will be printed in the Program & Proceedings book. If your firm would like to sponsor a Technical Tutorial, or if you have any questions concerning their organization, please contact:
