

6th Northern Lights Summer Conference

Biology of Aging - New Answers to Old Questions

June 17 - 20, 2008 • University of Manitoba, Fort Garry Campus, Winnipeg, Manitoba

Keynote lecturer

- * Aging is No Longer an Unsolved Problem in Biology
Leonard Hayflick, University of California, San Francisco, USA

Symposia

- * Nutrition as a Determinant of Successful Aging
- * Muscles: From Molecules to Mobility
- * Dilemmas of Drug Therapy in the Elderly
- * The Role of Oxidative Stress in the Decline of Aged Muscle
- * Neuromuscular Function and Resistance Training in Older Adults - From Laboratory Research to Clinical Implications
- * Calpain: A Molecular Monkey Wrench Involved in Aging and Cell Death Mechanisms
- * Cardiovascular System and Aging: Exercise Blood Flow
- * The AAA Alarm: Antioxidants, Atherosclerosis and Aging
- * Biology of Alzheimer's and Dementia

Oral & Poster Presentations, Scientific Exhibits, Social Events, Student Activities,
Award Lectures and Travel Awards.

Abstract Deadline: Refer to Website: www.cfbs.org
